

Dear Friend,

Planet Verde has been in the food delivery business since 2010. We are a company committed to SLOW values. Sustainable, Local, Organic and Whole products. As many businesspeople are making changes to become more sustainable, our goal is to further your ability to select products that are produced locally. We are different from large distributors who have a fleet of tractor trailers that travel an average of 1500 miles from their warehouse to destination. Our average trip is less than 100 miles. These large businesses are not able to represent small farmers and food producers and only represent companies that can scale to national standards.

We are also committed to delivering the healthiest food we can find locally, avoiding chemicals, additives, colorants and promoting organic practices whenever possible. We have found that promoting local companies and small business are one area that we can find consensus amongst a wide sector of consumers. Our motto coined in 2010 "BUY IT FORWARD" implies that our buying choices can make a difference.

We ourselves are a small company, where every employee has a stake in the company. Understanding that as a small business yourselves, you must make buying choices that are economically best for your establishments. Our ask is for you to choose Planet Verde for some of your purchasing. We have several refrigerated trucks that service most of Oregon and Southern Washington from our two warehouses in Eugene and Portland. We also produce our own products OREGRANOLA granola, and Yummy Monkey Organic Popcorn, under the tab Planet Verde Foods.

Our business is divided in two parts. First our wholesale business and second our delivery business. In the first case we will bill you on our own invoice and in delivery business the vendor will bill you directly. Our role is very similar in both cases. We will visit your establishment and provide the service you require including stocking and rotating shelves.

Our digital catalog has a column we call attributes which will help you understand aspects of the products. For example, SU would be sustainable, OR is organic and LO local. For your convenience, we have created hyperlinks in the header of each company which will connect you the company's website.

If you have any questions, please contact us at sales@planeverde.net or call us at (541) 357-4550

Thank you,
Management Planet Verde

Many years ago, the proPIeter of Divine Pie—Alissa Martucci—got hooked on making pies during a raw food cleanse. Desperate for something decadent that fit those strict alkalizing rules, she began experimenting with different nuts, dates and fruits trying to satisfy her sweet tooth with a dessert that was simultaneously rich, creamy and raw...not an easy task! After many gooey crusts, floppy fillings, inadequate blenders and broken food processors, she finally achieved the perfect pie: the one that could convert even the staunchest gluten-, dairy- and sugar-loving foodies into raw pie enthusiasts. popular show “Unique Sweets”, and since then the pies have continued to grown in popularity and availability with new flavors being dreamed up on a regular basis! e pies got their first exposure to the public taste bud when they were sold at small food carts and events around town. After countless special orders and requests, Alissa decided to try the pies out at the Portland Farmers market and sold out on the first day! Within 6 months of their debut, the pies were featured on the Food Network’s popular show “Unique Sweets”, and since then the pies have continued to grown in popularity and availability with new flavors being dreamed up on a regular basis!

Alfalfa Pellets	40lb	RE			1	1	Box	810013110197		OR,LO,SU
Oven-Baked Dog Food	5lb	RE			1	5	Box	810013110067		OR,LO,SU

We manage more than 6,000 acres of organic alfalfa in Eastern Oregon, to supplement our dairy cows during the winter months in the Willamette Valley when their time out on pasture is limited.

As much as we love our cows, we're life-long dog lovers too! We jumped at the chance to make a delicious, nutritious dog food inspired by our own Buddy, a Landseer with a heart of gold. Chicken and turkey top the list of premium, human-grade, locally sourced Oregon ingredients with all the essential vitamins and minerals your pup needs and nothing artificial.

Livestock and
Pet Foods

Our farm fresh Go Organic eggs come from our special flock of organically raised and grown hens. We mill the feed ourselves, in our own certified organic fee mill using the finest mixture of organic corn and soy. From the time they were baby chicks they have been enjoying a cage free lifestyle, enjoying access to the outdoors. Our chickens are naturally cared for, never given any hormones or antibiotics. **Certified Humane** by Humane Farm Animal Care.

Our commitment to only the highest quality ingredients reflects our belief that the nutritional benefits of soy are most effectively used in whole foods such as tofu and tempeh. Both products convert the soy nutrients into food fit for human consumption – a far more ecological use of soy than when it is fed to livestock. Tofu and tempeh can thus help reduce the drastic environmental impact of our culture's dietary habits.

PURE LEAF ARTISTRY

We offer a wide variety of specialty teas as well herbs and blends, and our focus has always been on sourcing the best tea leaves (camellia sinensis) possible. Similar to grapes, tea plants have many regions, varieties, processing methods, and seasons. We as merchants are particular in working with growers to secure exceptional-tasting leaf each season, as good tea sells out very quickly and is seldom made in large quantities. We pledge to share teas made with artistry and skill, and to help educate on tea origins, processing methods, flavor vocabulary, and spirit.

BEING ORGANIC IS NOT ENOUGH

Care for the soil and tea plants must be coupled with recognition and sustainability of surrounding ecosystems. The genesis of tea plants was in naturally occurring tea forests where bio-diversity creates rich flavor. We are proud to be among the leading group of companies to offer certified organic teas, and we seek to raise awareness for sustainable tea farming methods.

*PLEASE NOTE THAT BNF UPC's WILL BE UPDATED BY Q 3 2021. WE WILL LET YOU KNOW WHEN THE NEW LABELS ARRIVE

Kombucha and Jun are known to have billions (sometimes even trillions) of probiotics in addition to beneficial enzymes and acids. Real friends to our bodies! Scientific research has uncovered many great benefits to this magical beverage, all with less than half the sugar of most sodas and juices. Our mission is to craft a fantastic tasting kombucha using as many locally grown ingredients as possible. We believe the closer to home ingredients are grown, the better they are for us and our planet. So drink up and experience for yourself all the gifts your new friends have to offer!
